STRATEGY

Juno invests in highly profitable listed companies, with predictable earnings growth and preferably with management or a (founding) family as their main shareholders. Listed European family-owned companies operate with a longer term perspective and are more successful than non-family-owned companiesl.

Juno aims to achieve capital growth by investing in a highly concentrated portfolio of European companies. Selection takes place based on its proprietary fundamental, bottom-up analysis including on-site visits.

A high or rising return on capital and large free cash flows are good indicators of strong companies that we are interested in. We invest with a time horizon of 3 to 5 years.

The Juno Selection Fund focuses on companies with a market cap between €250 million and €4 billion at the moment of initial investment.
