

# Fact Sheet

## Juno Selection Fund

### Strategy

Juno invests in highly profitable listed companies, with a predictable earnings growth and preferably with management or a (founding-) family as their main shareholders. History shows that financially strong, listed, family owned businesses offer returns close to twice as high as non-family owned businesses.

Juno aims to achieve capital growth by investing in a highly concentrated portfolio of European companies. Selection takes place based on its proprietary fundamental, bottom-up analysis and on-site visits.

A high or rising return on capital and large free cash flows are good indicators of strong companies that we are interested in. We invest with a time horizon of 3 to 5 years.

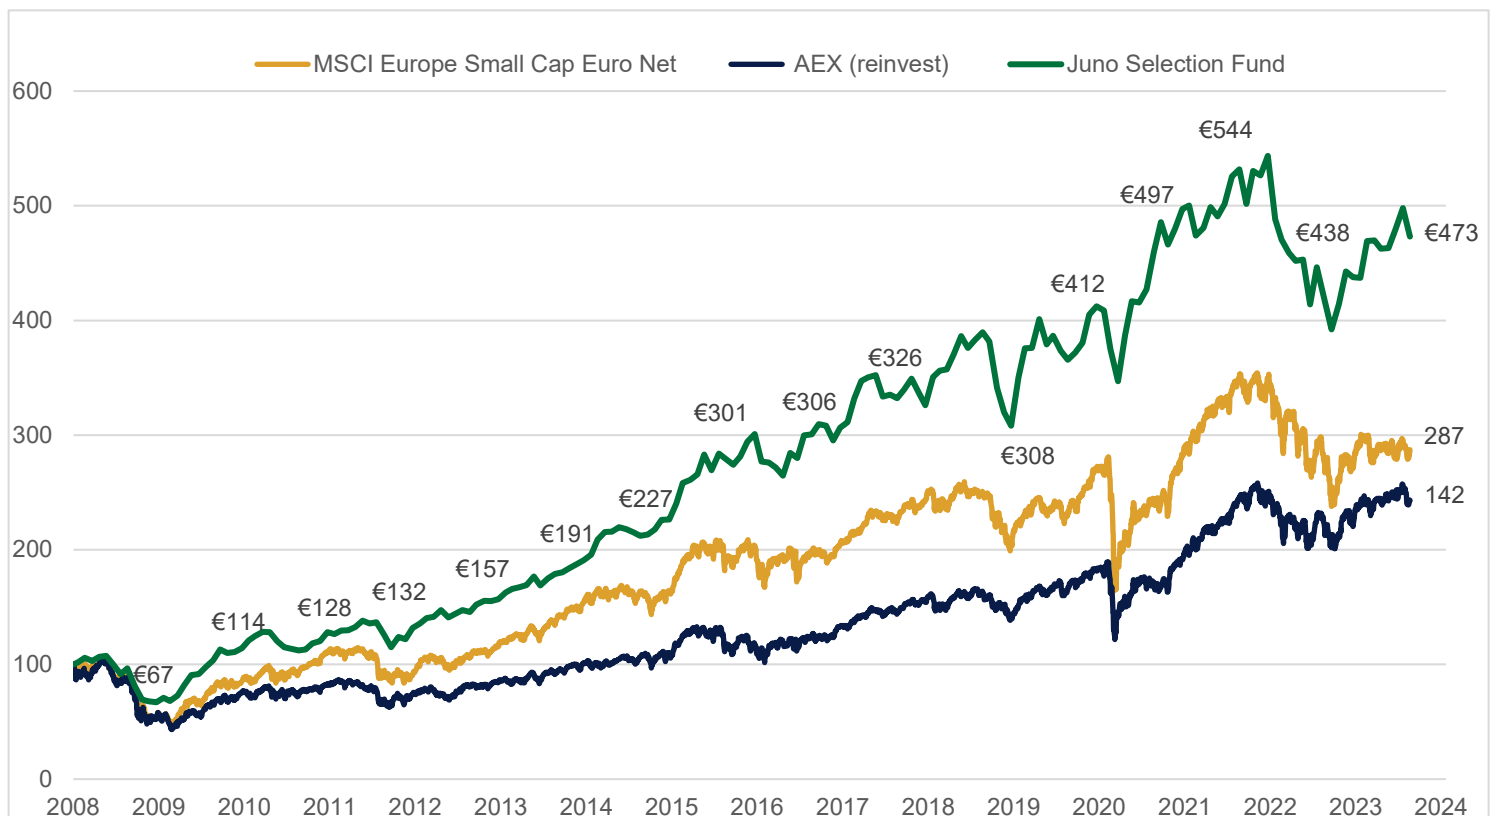

### Juno Selection Fund

The Juno Selection Fund is an equity investment fund, in which clients can invest starting at a minimal initial amount of €150.000,-<sup>1</sup>. We invest in listed shares of exceptional and often unique European companies with a market cap between €250 million and €4 billion at the time of initial investment.

The fund was launched on January 11, 2008 and is managed by Juno Investment Partners' Frans Jurgens, Lennart Smits, Ernest van Tuyll and Bobby Bader who gained considerable experience at WP Stewart, Comgest, Kasbank en Roland Berger, etc.

The Juno Selection Fund is a semi open-ended Dutch mutual fund. Subscriptions and redemptions can be made mostly on the first working day of the month. The fund falls under Juno Investment Partners B.V.'s AIFMD licence.
